## C. EVALUATION AND FEEDBACK

1. Please indicate some suggestions for improving the paper:

- In my opinion some parts of pages 3 and 4 are in contradiction with each other. In page 3 it can be read that "The questionnaires were spread using the stratified random sampling method", but in page 4 – based on age-distribution of respondents – the author claims that "The young people at the tourist village seriously pay attention to the development of tourism at their village".
- In Table 2 it would have been more appropriate to give the number of pieces of each value rather than the product of the value and the number of pieces.
- In Tables 4 and 5 some captions are not in English.
- There is a discrepancy between the values in Table 2 and the figures in the Cultural Factor subchapter.

2. Other comments and observations:

.....

3. Would you like to get the revised version of the paper from the authors?

Yes  No

RECOMMENDATION – please mark one of the following boxes:
