1. Overall, the paper is good. Manuscripts must be written according to the template, namely: font size for titles, abstract writing, placement of keywords, writing and placement of headings, how to write numbers and names of tables and figures, and the writing of references.
2. Check back Grammarly
3. Figure 4 is unclear
4. Figure 5 and 6, Each image is given an explanation, and then adjust the position of the image and explanation to make it more structured
5. Please strictly follow article format and template (paragraph indentation, etc.)
6. You must briefly explain the parts of the image in the data acquisition and analysis
7. The purpose or purported significance of the article is explicitly stated.
8. The literature review and research study methods are explained clearly.

Please present the data not only in tabular form but also in graphical form.

You can present state-of-the-art research separately from the introduction.

You should also briefly describe the method you use

The conclusion does not describe the results of the study, because this study has limitations so it is necessary to explain the conclusions as well.
