Dear Mr. I Gusti Ngurah Agung Dwijaya Saputra:

Information about your paper #1570755001 (A New Approach in Controlling A Single Axis Solar Tracker Based on Photovoltaic Output) for **ICEEIE 2021** was changed by I Gusti Ngurah Agung Dwijaya Saputra ():

I Ketut Suryawan added as author

No further action is required from you.

If you have already submitted your manuscript, you can change it at any time before the deadline, by following the instructions below:

- Via web form upload:

You can see all your submissions and their status at <https://edas.info/index.php?c=27974>

using the EDAS user name

From there, you can see the current status of the paper, whether a manuscript has been submitted and can edit the paper information.

Dear Mr. I Gusti Ngurah Agung Dwijaya Saputra:

Your paper #1570755001 ('A New Approach in Controlling A Single Axis Solar Tracker Based on Photovoltaic Output') has been accepted, but requires major revisions and will be presented in the ICEEIE 2021.

The reviews are below or can be found at <https://edas.info/showPaper.php?m=1570755001>.

For Revision/final paper submission of accepted papers, please do the following steps:

1. Ensuring the paper in A4 paper size conform to standard of IEEE Manuscript Templates for Conference Proceedings ([http://www.ieee.org/conference\\_events/conferences/publishing/templates.html](http://www.ieee.org/conference_events/conferences/publishing/templates.html)).
2. Validated and Converted your paper in PDF format to IEEE Xplore®-compatible PDFs through PDF Express (<http://www.pdf-express.org/>) with conference ID 52663X.
3. Submit your papers in IEEE Xplore®-compatible PDFs to ICEEIE 2021 through EDAS.
4. Fill out who is presenter for the paper title and electronic IEEE Copyright Form (eCF) through EDAS.

Screenshot of a Gmail inbox showing an email from IEEE regarding a paper revision. The email content is as follows:

Send your revision no later than September 19, 2021 through your EDAS account, for further evaluation to be fully accepted in our conference.

After submitting your final paper, we will review the conformance to the IEEE Manuscript Templates for Conference Proceedings.

Best Regards

The Technical program chairs

Dear Mr. I Gusti Ngurah Agung Dwijaya Saputra:

Information about your paper #1570755001 ('A New Approach in Controlling A Single Axis Solar Tracker Based on Photovoltaic Output') for ICEEIE 2021 was changed by I Gusti Ngurah Agung Dwijaya Saputra ():

Abstract. Harvesting energy from the sun is a trend in this era. One of the strategies in collecting this solar energy is using a solar panel with a solar tracker to find an optimum value of this power. There are many strategies to track sunlight movement both on the single-axis or double axis. In this paper, a new method in finding an optimum energy collection is proposed. This new approach applies a mini solar tracker driven by a micro servo motor as a sunlight sensor. This method's strategy is to multiply the output voltage and current from the mini solar panel to get a maximum power value at a specific degree for driving the larger servo motor at larger PV. As a result, energy supply to the larger motor is reduced. The results show that this strategy can find optimum power from the sun's energy.
