Subject: "International Conference on Experimental and Computational Mechanic in Engineering" Manuscript
"Experiment Investigation of Making a Composite Material from Waste (LDPE) Plastic"

To: Made Ery Arsana <eryarsana@pnb.ac.id>

Dear Made Ery Arsana,

Based on the reports of the referees, the Editors have determined that your article «Experiment Investigation of Making a Composite Material from Waste (LDPE) Plastic» requires revision before it can be published in the «International Conference on Experimental and Computational Mechanic in Engineering». To access the referees' reports and submit your revised article, please enter the publisher's website <https://www.scientific.net> and log in using the credentials below:

Username : eryarsana@pnb.ac.id

Password : pcLma752

After you log in please select « Author » role and then « My Papers » at the top of the screen and then click on items in the « Reviews » column of the papers list to access the Editor/Reviewer reports of your article. If you click on the « Paper Title » column of the papers list you will get a screen where you can upload your revised manuscript.

Please check the Review(s), revise your manuscript and upload a new version. The new paper must be uploaded over the first version, just click on your paper title and upload the new version (mandatory).

The revised manuscript is uploaded over the earlier version, thus replacing it.

If you have any questions or wish to comment on your revisions, please e-mail the Editor.

Thank you.

Best regards,

Akhyar Hasan

Dear Editor,

We have revised our article in accordance with the reviewer's comments.
The revisions include the format of the article, proofreading, figures, Tables, and their caption.

Thank you very much for your cooperation.

Best regards

Arsana, Made Ery

Pak niki komennya reviewernya

Yang komen reviewer 2 sudah rik kerjakan pak yang komen reviewer 1 yang ngk bisa rik kerjakan rasanya udah ikuti templetanya ..kok masih dibilang belum benar ya pak , prof reading sekalian ya pakgrammarly profesional yang ty gunakan sudah expired pas nulis nike desembertolong ya pak amir ty kirimkan templete dan tulisannya yang udah ada nama pak amir...batas waktunya besok pak amir suksme ya

Reviewer 1

The authors try to develop, composite material from used plastic and conduct testing, mechanically to obtain a composite material that can be used to make alternative building material. But some revision points that authors have to work on before being accepted, there are:

1. The paper has not followed the template; it is mandatory to follow the template;
2. recheck grammar and typo (need proofread).

Reviewer 2

(1) In figure 5 and Figure 9, please put the name at each bar of samples (to provide information regarding the different samples)

(2) In Figure 6 and Figure 7, please put the information regarding blue line and red line

(3) In figure 8, please change all the text to English

**Materials Science & Engineering**
Online periodicals

Paper: «**Experimental Investigation of Making a Composite Material from Plastic (LDPE) Waste**»
Journal: «**Key Engineering Materials**»

Dear I Nyoman Suamir,

We are very pleased to share that the «Key Engineering Materials Vol. 892» has been prepared for future publishing with all possible, necessary, and impartial care. Our team prepared the publication according to the publisher's criteria.

The final version of your paper «Experimental Investigation of Making a Composite Material from Plastic (LDPE) Waste» is safely stored in our database, and it is exclusively available for you in your [Scientific.net](#) account. You can access your paper by using your login credentials:

Login: nyomansuamir@pnb.ac.id

Password: gvfnN963

Go to the upper left corner and choose 'Published Papers'

We are kindly asking you to examine the results of our dedicated work and contact us if you have any questions.

Thank you for your trust in sharing your excellent paper with TTP.

Yours sincerely,
The Publishing Team, Scientific.net

P.S. last but not least we are pleased to let you know that

- We offer you a special discount for the print or e-Book that contains your paper(s)
- We have published a new Specialized Collection volume **Corrosion. Biomedical Metals and Alloys** available online at scientific.net/SC.17/book. Also we offer a discount of 25% on this title. Please, use the promocode **Z20SCMAIL21**
- Our journal [Nano Hybrids and Composites](#) is open for the submission of stand-alone papers.

Our publishing process assures:

- A peer-review system, safeguarding COPE publishing ethics
- An author-friendly tool
- International Indexing

Ready to publish? Follow this [link](#) to submit your request
